Leveraging 7 years of software development as a passion  
into a new career.

Law → Real Estate → **Software Development**

### WORK HISTORY

#### **Currently Seeking — Junior Full Stack Developer**

FEB 2019-PRESENT

- I spent 7 years teaching myself to write code solely as a passion.
- I am using my own savings to pursue software development full-time for the last year to make this career transition.
- I completed a Python/Django full-stack blog project featuring user registration, login, profile creation and more.
- I completed a PHP/MySQL full-stack list reminder project to help me self-coach myself toward building better Billiards skills.

#### **Hague Partners/72 Sold — Agent**

JUN 2016-FEB 2019

- I closed my first sale days from listing with a 10-day cash buyer close to a 1M purchase price.
- I continued to sell millions in gross every year in a tough luxury real estate market.
- I held client happiness paramount in measuring my success.

#### **AP Wireless Infrastructure Partners — Attorney**

NOV 2012-JUNE 2016

- I negotiated a 60K/year firm liability down to \$0/year in one day shortly after hiring.
- I negotiated countless investment deals to help this startup build a robust portfolio of approximately 3,000 cell site investments worldwide.
- As in-house counsel, I “put out daily fires” and increased ROI on our investments post-closing.
